

## Deals & Dealmakers Awards Ceremony

September 2008 - Hilton Glasgow Hotel

Launched in 1998, these awards recognise exceptional achievement by Scottish companies and individuals who lead Scotland's corporate finance market place. Sponsored by the Royal Bank of Scotland the ceremony includes 11 award categories to reward companies who initiate deals and also the dealmakers who carry them out.

Introducing our fantastic and new technology to the events industry, STEALTH lived up to its reputation and completely wowed our client, their guests and sponsors at the Hilton Glasgow Hotel with its amazing qualities. The Awards ceremony was slickly technically produced by Sound and Vision allowing guests to celebrate in style!

*"The Stealth screen worked extremely well for the Deals & Dealmakers awards ceremony ...we predominately used the screen to display sponsors logos which allowed us to provide our sponsors with great branding opportunities - unlike anything that they had received in the past. The feedback so far from sponsors has been fantastic with many asking for pictures of their logos on this big screen.*

*As the screen is very bright and provides a good picture quality, this would work well for other types of events and especially for those that incorporate VT clips.*

*In short this new product exceeded all of our clients expectations and we will definitely be using it again!"*
